<b>Project Summary</b>	<p>The Baptist Health Positive Appearance Center fosters healing, encourages healthy lifestyles, and promotes breast cancer education. It is a private area designed to help individuals manage the physical appearance changes brought about by cancer and its treatment. Consultants are available to provide information and assistance with personal appearance concerns. This private environment is a place where women can shop with dignity and purchase hats, wigs, turbans and other items that help patients feel better, look better and live better.</p>
