	Mountian Home, AR 72653
Phone	(870) 508-2340
Amount Awarded	\$3,679.00
Counties Served	Baxter Marion Fulton Searcy Independence Sharp Izard Stone
Project Summary	The target and central focus of "Tell Your Mom, Save A Life" is to help all senior female students and female faculty become family and community advocates for good health and the three important steps for breast care. In this program, Baxter Regional employees provide breast health education to north central Arkansas schools during the fall and spring semesters. As a result, the senior students will transition into adult life with raised awareness for their own breast health and cancer screenings.
