<b>Project Summary</b>	<p>The White River Breast Care Alliance is a program aimed at meeting the needs of uninsured or underinsured women who are in need of breast care services. The program will provide free clinical breast exams, breast care education, mammograms, and surgical consultation to women who have no insurance coverage. In addition, women who receive a recommendation for a biopsy or excision from a surgeon will receive these services free or at a reduced cost. The target population will include women who are living in or can travel to the White River Rural Health Center service area and meet income and insurance coverage guidelines.</p>
