

Project Title: “New Outlook” Services for Breast Cancer Survivors

Amount: \$50,960

Project Description:

New Outlook: The Women’s Cancer Recovery Program of St. Vincent Health System offers all women diagnosed with cancer a full range of supportive, non-medical services to strengthen the whole woman – body, mind and spirit – regardless of her economic situation or where she is receiving treatment. New Outlook services include prosthesis fitting and wardrobe consultation, wig and hair styling (wigs provided), makeup consultation, education materials, print and DVD library, nutritional and exercise counseling, support groups and referral services. With assistance from the Arkansas Affiliate of the Susan G. Komen foundation, New Outlook provides mastectomy bras and prostheses at no charge to women across the state of Arkansas who do not have insurance coverage for these items and thus cannot afford to pay for them. Funds from the Komen Foundation also help New Outlook serve women who have lymphedema, providing free massage therapy and lymphedema sleeves to women who have no insurance or who are underinsured.
