

Project Title: Reach Every Woman III

Amount: \$50,975

Project Description:

With the help of the Susan G. Komen Foundation, Jefferson Regional Medical Center would like to continue to *Reach Every Woman*. This proven program improves access to care for uninsured or underinsured women by providing mammograms, ultrasounds, or special surgical services and radiology fees at no charge. An additional educational component of this grant includes visits to the four main high schools in our area, educating over 3000 students on the importance of breast health. A breast self exam class will also be offered, advertised and open to the entire community.

Service Area:
